

THANK YOU TO OUR SPONSORS, SUPPORTERS & VOLUNTEERS

"A rookie conference rocks!"

- *The best equine conference or clinic I've ever attended.*
Paul Sherland, trainer, Texas
- *No comparison, bar none. I have never been to such an event of this quality. Somehow you had all the equine superstars.*
Anonymous
- *High-quality presenters, it felt intimate, loved the fact that you got to mingle with the presenters, relaxed and fun atmosphere. Well researched information. I enjoyed the Summit more than some of the big scale expos.*
Dr. Petra Sullwold, equine chiropractor
- *A great turnout, especially for the first year. All the presenters were top notch and it was really well organized. Usually the first year of an event is more of a learning experience...but the Best Horse Practices Summit was successful out of the gate.*
Martin Black, presenter and renowned horseman
- *The information obtained from this Summit was much more useful than I have ever taken away from any other expo or conference.*
Anonymous
- *The whole thing was amazing.*
Warwick Schiller, presenter and international trainer

BHPS BY THE NUMBERS

Attendees had this to say about the Summit via post-Summit survey.

100%

All academic and arena presenters rated very good to excellent.

81%

Plan to come back to Durango for the Summit next year

94%

Said they got their money's worth and then some

90%

Intend to watch Summit online presentations, due out in 2018.

“ It’s been an intense, mind-boggling couple of days at the Best Horse Practices Summit. I learned so much about horse brains, horse behavior, and horse-human connections. I met so many amazing horse people from so many different equestrian worlds. I have so many new ideas . . . And I had fun!

Katrin Silva, horse trainer, New Mexico

“ This event has a bright future. More horse people everywhere are figuring out that a questioning, curious, science-based mindset is better than a blindly following one. This Summit brought together such a diverse group of people and allowed them to discover the common ground all horse-humanship shares, rather than focusing on the relatively shallow differences between traditions.

“ Congratulations on an outstanding event. I heard so many wonderful comments. Good horsemanship knows no country, culture, or discipline.

Linda Hoover, North Carolina horsewoman
